

CHAPTER 2

The Treaty

The two armies met near the river after a long campaign that lasted through the monsoon. The treaty that ended the war was signed in 1782, and it promised that the two sides would stay at peace for

twenty years. The treaty also returned the captured forts to their old owners, which was its most important term.

A later chapter explains how the peace broke down after the death of the old regent, when the courts began to hear the claims of the heirs.

They voted in, stood for, and got elected to local bodies. Rani Laxmibai led the revolt at Jhansi and became its best-known leader.
